

## HYRO® bandsaw guide

Brilliant control of the saw blade on small bandsaws with blade widths from 4-40 mm.

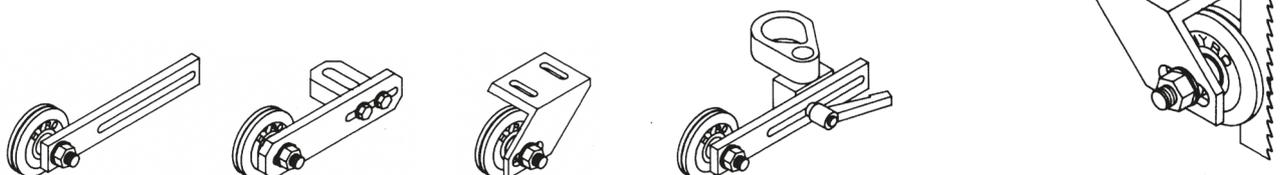

HYRO® bandsaw guide is a patented product that extends the life of the saw blade and improves the level of precision on demanding jobs.

The HYRO® guide controls the saw blade 100% during cutting. The saw blade cannot move while in the subject, as the rotating guide controls sides and rear side in one motion.

### Your advantages by choosing the rotating HYRO® bandsaw guide

- ▶ Increased productivity in demanding jobs.
- ▶ Higher degree of precision.
- ▶ Increased safety - the saw blade does not break as easily.
- ▶ Prolonged life on saw blades.
- ▶ Less or no after treatment of the cut item.

### Several forms of mounting fixtures:
